Title: A SYSTEM AND METHOD FOR WEB SERVICE BILLING			

SUMMARY OF TELEPHONIC CONVERSATION

On February 7, 2008, during a telephonic discussion of application 10/666,631, the applicants' representative noted that the final office action mailed on December 31, 2007 appeared to have been improperly mailed, as it was not responsive to the remarks filed by the applicant on October 17, 2007, and because the signature on the final office action was dated July 20, 2007. After reviewing the final office action mailed December 31, 2007, the Examiner agreed that that office action appeared to have been mailed in error. As a result, the Examiner agreed to withdraw that action and issue a new office action addressing the substance of the remarks filed on October 17, 2007.

The Examiner requested that discussion of the substance of the application and the remarks filed on October 17, 2007 would be postponed until after a new office action had been sent out.

Respectfully submitted,

/William Morrisey
